

## Customer Visit Notes

February 13<sup>th</sup>, 2024

### Team A

- Liked the idea of having dropdown menus (They had it on their About Us page)

### Team B

- Straight forward design is more desired than an interactive one.
- Be careful with carousel when you have a lot of items in it.
- Dataset will not include all 17 SDGs.

### Team C

- Contact page is lower priority than data.
- Liked the idea of pinwheel design.

### Team D

- Sidebar is good. Easy to get used to like in MyPeg.ca.

### Team E

- Pinwheel is good; more interactive and easier to understand.
- Search bar is good.
- Donations is not priority, don't worry about this functionality.
- Visually appealing is also good.
- Having nice icons is nice

### Team F

- Download and Share buttons
- Language translation is good but not at the top of the priority.

### Additional comments:

- Showing lots of prototypes on the same page makes it easy for the customers to compare each one.
- Can "borrow" ideas from other groups.
- Ask Brooklyn about the interactive wheel.
